How to Use This Guide to the 2007-2009 Governor's Executive Budget Bill

2007 Senate Bill 40

The 2007-2009 Governor's Executive Budget Bill (the budget bill) is composed of hundreds of individual bill drafts (component drafts), each dealing with a particular topic or program. All bills in Wisconsin, including the budget bill, are divided into bill SECTIONS, which are organized in numeric order of the statutory units treated by the SECTION. It is often helpful to be able to identify all of the bill SECTIONS in the budget dealing with a particular topic or program. This guide is intended to enable you to identify and locate bill SECTIONS in the budget that originated from the same component draft.

To use this guide, begin by identifying the Legislative Reference Bureau Number (the LRB number) of the component draft dealing with the topic or program that you are interested in. To do this, use the first index in this guide, which is organized alphabetically by subject and has the following column headings:

Component Subject	Component Topic	LRB No.
General subject matter of the component draft	Specific topic of the component draft	LRB Number of the component draft

After determining the LRB number of the component draft, locate all of the bill SECTIONS in the compiled budget draft that originated from that component draft. To do this, use the second index in the guide, which is organized numerically by LRB number and has the following column headings:

LRB No.	Component Subject	Component Topic	Section No.	Statutory Action Phrase
LRB number of the component draft	General subject matter of the component draft	Specific topic of the component draft	SECTION number in the budget bill	Treatment made by that SECTION number OTS = of the statutes
